## All your Customer Research in A Single Place.

Streamline your customer research with our collaborative interface.  
No more missing sheets, non-connected airtables, lost interview notes & video recordings - we bring it all into one space.

The screenshot displays a web application interface for 'Product Feedback'. On the left, there is a sidebar with a 'Calendly' logo and a navigation menu containing 'Projects', 'Facts', 'Insights', and 'Recommendations'. The main content area is titled 'Projects' and features a '+ New Project' button in the top right corner. Below the title, there are two sections: 'Planned 2' and 'Ongoing 3'. The 'Planned' section lists two projects: 'Power Users x Calendar' (with sub-items 'Calendar', 'Power users', 'Desktop' and a date of 'Janv 14') and 'Churned users' (with sub-items 'Customer XP', 'Churned users' and a date of 'Feb 23'). The 'Ongoing' section lists three projects: 'Mobile onboarding flow' (with sub-items 'Onboarding', 'New users', 'Mobile' and a date of 'Feb 25'), 'NPS survey' (with a date of 'Mar 8'), and 'Checkout page' (with sub-items 'Checkout', 'Desktop' and a date of 'Mar 12').

# MARKETPLACE

Development of weekandgo.com, a marketplace for the 31 dealer partners of the Rapido Group, a European leader in the leisure vehicle market.

## Suite territoriale

Mettre à disposition des collectivités territoriales une plateforme sécurisée de services mutualisés

[suiteterritoriale.anct.gouv.fr](https://suiteterritoriale.anct.gouv.fr)

Produit en construction

User interface development in Next.js and Typescript

Development of automated tests to guarantee non-regression

## Contexte

Dans le cadre du Plan France 2030, et plus particulièrement son volet "Maîtriser les technologies numériques souveraines et sûres", l'Agence nationale de la sécurité des systèmes d'information (ANSSI) a pour objectif de **poursuivre la sécurisation des systèmes numériques des collectivités territoriales**.

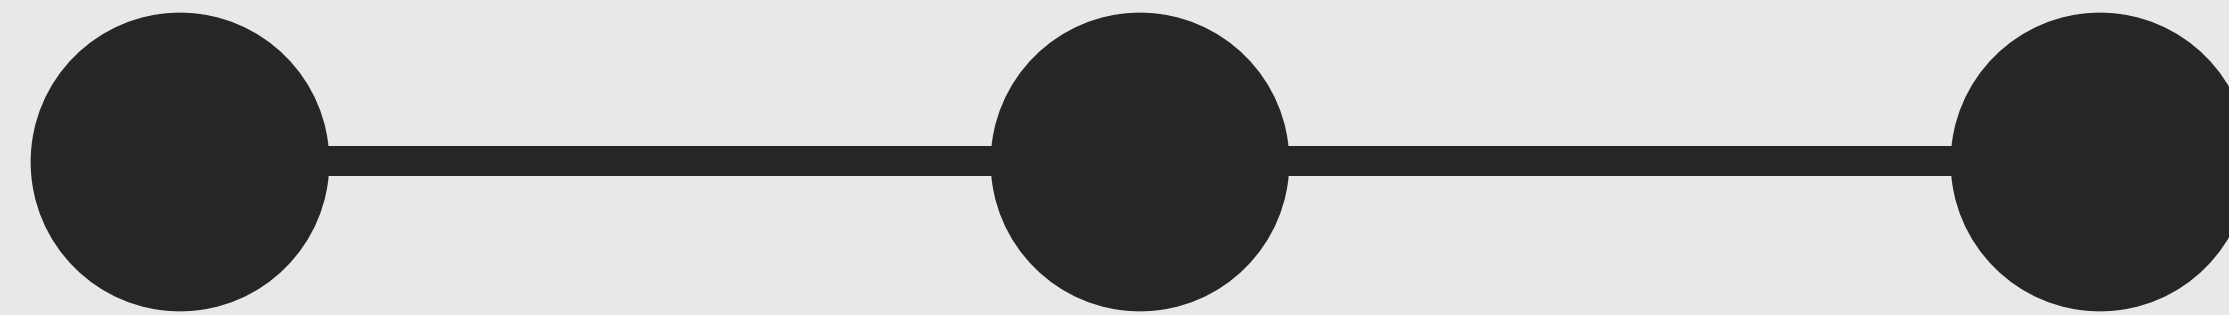

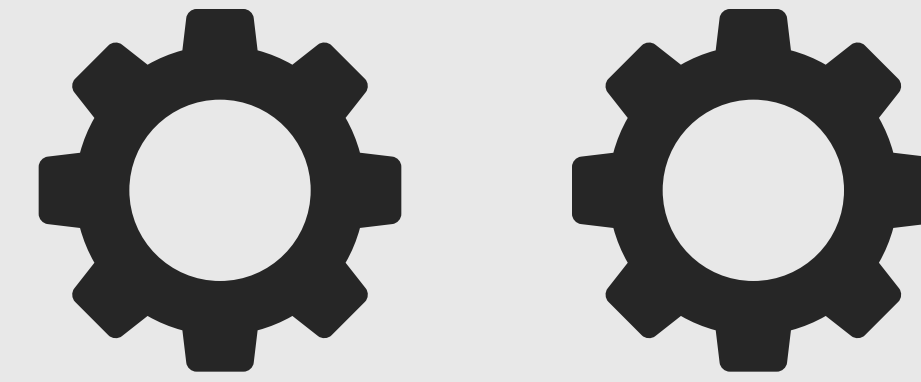

L'Agence nationale de la cohésion des territoires (ANCT), via son Incubateur des Territoires, a pour objet la **construction de services publics numériques par, pour et avec les collectivités territoriales**.

## À propos

Suite territoriale est portée par L'Incubateur des Territoires (ANCT).

Ce service numérique est sponsorisé par Agence Nationale de la Cohésion des

# MY PROCESS

## Meeting 1

Discovery: We discuss your project and how I can help.

## Meeting 2

Proposal: I get back to you with a quote for 1 month's work.

## Developments

Every week, I develop new features and deploy them. And I hold a meeting with you to discuss progress and budgets.

The best way to stay within your budget is to find out how to develop and deliver the service provided to the users of your solution most straightforwardly and which features to prioritize.

I organize the work based on Agile and Lean principles to do this. I don't bill by time spent or fixed price, but iteratively, which is a method in between.
